WHAT IS AFFILIATE MARKETING?

I told you I won't waste time blabbing to you in every details what affiliate marketing is an its history... I'll Just go straight to what is

needed to be known.

Affiliate marketing simply means selling something for others and getting a commission in return.

Example:

I have 100 creams which I sell for N1000 each with very few customers, I then contact you or allow you register to my company with catch being that, if you help me sell any one cream, I will give you N200.

In this simple process, I am the Owner of the Goods, while you are the affiliate.. the N200 I will give to you for any product sold is called you commission.

Whoops, in less than 12 lines we've discussed what affiliate marketing is and how you earn from it, isn't that impressive? Other marketers would beat about the bush typing irrelevant jargon you won't be needing.

I'll keep everything short so you don't get bored.

Deal??

Important Affiliate Terms You Need to Remember.

- **Affiliates:** This term is used to describe those promoting the product that is me and you.
- **Affiliate marketplace:** These are meeting points or intermediary between publishers and affiliate marketers. Publishers showcase their products in affiliate market places for affiliates to evaluate and promote. Examples include Jvzoo, ShareASale, CJ (Commission Junction), Clickbank which works as central database for affiliate programs in different niche.
- **Affiliate link:** Use to track the success of the product you're promoting.
- **Affiliate ID:** This is Similar to Affiliate link, but, in this case, many affiliate programs offer a unique ID, which you can add to any page of the product you want to promote.
- **Payment mode:** This is the means through which you will receive your cash. Different affiliate program offers a different method of payment. E.g: Check, Wire transfer, PayPal and many more.
- **Landing pages:** A unique product sales or demo page to increase the sales. Most of the programs that you will be promoting have many landing pages, and you can run A/B testing to see which converts more for you. More on A/B testing later

HOW DO YOU GET PRODUCT TO PROMOTE/SELL AND EARN??

They are many ways and many places to get product to sell, We

could even opt in for Konga or Jumia affiliate... But heck No! They offer very little commission, hence we will be using a better Company. This company focus mainly on selling Digital products like eBooks and supplements this company is the very best in the gain when it comes to giving sellers high commission.. you could end up to **\$100** selling one product from this company, that is.. If you sell just five product you earn **\$500**. It seems unbelievable, but people are earning more than that every single day. The name of this Company is called **ClickBank**

Normally This company don't accept Nigerians and some other countries in their program because of security reasons.

If you ask me what the security reasons are, I'd tell you to ask **Yahoo and Gboys...** smiles.

Although this company don't accept Nigerians, They are ways which you can still bypass and register and earn normally like every other person or people accepted by them.

To achieve this, we will be using a **VPN** (Virtual Private Network) We will be using a free and powerful VPN Called **Tunnel Bear** VPN. This VPN isn't entirely free per say, but they give you 500MB Free every month to use before they start charging you to pay.

Don't worry.. what we'll be doing won't consume more than 50MB
